Subject: RE: Relocating a taxi rank

Hi Jeanette,

Just wondering if there is any update on this. Our TRO has been amended, but the layout on the ground has not yet been changed. I know you mentioned that the decision had been postponed until November, but I have had a look at various committee agendas and cannot see it. Out of interest, which committee would it be?

Thanks,

Hello Jeanette,

The delay is no big problem. I have submitted my works order without this bit. The only slight issue is that the traffic regulation order will be amended to show the change, so the 1 hour parking bays will still be there on the ground, but will not be enforceable, but I don't think that will be much of an issue as hardly anyone will be aware of it. This also means that if your committee approves the change then we can implement it straightaway. If they don't, we would just change the traffic order back to how it was before as part of our next parking review, which is due to start shortly after your committee meeting.

We formally advertised our intention to make all the parking review changes on 13 January, by way of a notice in the Surrey Mirror. At the same time we also put up notices on street light columns and parking bay sign posts and sent postcards to local addresses advising them that changes to parking were planned with a link to our website for them to find out the details. There was then a 28 day period (ending on 10 February) for people to comment on and/or object to any of the proposed changes. In respect of this proposal, we received no comments at all. I was a bit surprised that none of the shops commented about the loss of the parking bays, as we sent them all a postcard.

Best regards,

Good afternoon REDACTED,

The date for the Committee to decide on the change of layout of the rank at Station Road East, Oxted has been postponed to the next Committee which will be November 2022. I am unsure how this will affect your scheduled works order.

In respect of the report that went to the Local Committee in Dec 2021, it states that a consultation was carried out. Please can you provide that dates of the consultation. Also, were there any responses received, either positive or negative? If so, can you provide details of these please?

Kind regards,

Jeannette

Hello REDACTED,

Thank you for this, it is very helpful to compile my report.

Kind regards,

Jeannette

We took this to the Tandridge Local Committee on 3 December 2021 – see <https://mycouncil.surreycc.gov.uk/ieListDocuments.aspx?Cid=166&MId=8042&Ver=4> for details/minutes etc.

For me there are two parts to making the change. One is changing the traffic regulation order (TRO) so the parking bays alongside Lorimers disappear and the other is to make the actual changes on the ground. Do you think it likely that the your committee will agree to the change? If so, I will change the TRO but hold back on making the changes on the ground until later in the year.

Best regards,

REDACTED

Good morning,

Apologies in the delay in getting this to our Committee. I am just in the process of writing the report for this with the Committee date of 8th September. So please can we wait a bit longer before making this change.

Did you go to Committee with this at SCC? If so, the decision record from that would be useful to include in our report here if it is a public record.

I will be out visiting ranks on Wednesday so I can have a look to see if any others need refreshing.

Kind regards,

Jeannette

Hi Jeanette,

Sorry to bother you again, but have you any thoughts on this? I need to know whether to make the traffic regulation order change or not.

Thanks,
