FTP_R016	Phase 2	Resources	Timelines will be missed if BAU issues require resolution and there is an assumption that programme resources will be used to fix the issues	15	Each service to set out their savings delivery plan, including key milestones and dependencies, which will form the collated programme plan.	8	Service review updates and milestones have been populated by Heads of Service/Stream leads. Planning meetings are being held with heads of service to ensure information is captured consistently to enable dependencies/slippages to be trackable.	in prog	Timelines are being tightly managed and if there were to be a capacity issue, in one of the services, with the risk of delay to the savings, this would be flagged very quickly by the head of service to ensure that other options are explored.	Dec22 - Score reduced from 15 to 8. Plans have been developed to ensure savings delivery as forecast. External SMEs are being brought into the areas that need focus/additional expertise to progress, such as Operations, Assets and FM and Digital and Customer Services.	Mark Hak-Sanders	Programme Benefits delivery Board
					Individual plans to be baselined within the programme and used as drivers for savings delivery by the EMT / stream leads and Finance/Benefits Programme board. All risks to delivery identified by the plan owners are escalated to the Programme delivery board.		Individual plans are to be collated at programme level. Regular EMT delivery board meetings held where all savings at risk are raised and collectively resolved.	✓				
					All plans will include resource requirements to ensure that where BAU/external resources are required, the demand is clear. Where resources are redirected at BAU, plans will need to be adjusted to show the revised schedule. If BAU resources are not sufficiently available, backfilling of roles will need to be considered to free up time.		Key external resources are identified and secured as early as possible, for example expert advice from PeopleToo on Operations workstream.	✓

FTP_R017	Phase 2	Resources	Recruitment of the role required for the Service Improvements workstream will be slow/unsuccessful which will have a detrimental effect on delivering the savings for 23/24 savings and benefits in the business cases	12	PMO / Project manager to work with individual service leads to develop their service improvement delivery plans that focus on delivery of savings.	8	Planning sessions required to work with heads of service to support with development of their plans.	in prog	13th March Agreement to resource focus areas from within the team along with EMT teams working together to deliver the savings. Those areas that require focus, such as restructure savings across all services, have a dedicated project manager allocated from the programme to ensure the work progresses as planned.	Nov22 - Score reduced from 12 to 8 due to focus on amber/red milestones, by EMT and the programme team. A number of savings are now delivered and complete and Amber items will be focussed on by the project manager to move forward with the head of service and achieve the saving.	Mark Hak-Sanders	Programme Benefits delivery Board
					EMT/Service improvement leads to attend fortnightly Delivery board meetings where plans are reviewed and any risks that are raised are mitigated against as far as possible.		Where milestones are amber/red, focus on mitigation and steps to resolve and get delivery back on track.	✓				
					Recruitment with SCC assistance to reach a wider audience - FTP to facilitate this approach.
