SLG4	<p>Mental Health Partnership Board (<i>one position available for three years to June 2026</i>)</p> <p>This work was prompted by a wide recognition in mid-2020, across many partners in Surrey that the emotional wellbeing and mental health system and services were not coping nor serving the people of Surrey well, resulting in poor outcomes and experiences. This significant and urgent cause for concern was matched by a strong and shared commitment to address the situation as a matter of urgency. 1.2 A Surrey Mental Health Summit in November 2020, convened by the County Council, highlighted these issues and poor service user experiences, as well as best practice and alternative models from elsewhere. The collective commitment and energy to address these issues was evident initially in the establishment by the Surrey Heartlands Integrated Care System Board of an independently chaired Mental Health Partnership Board and the subsequent peer-led diagnostic review, with the objective of identifying the priority actions needed to drive the required improvements and developments across the mental health system.</p>	Lewis Sharp (Con)

The meeting time commitment is one hour per month, plus any additional time required to read papers in advance of the meeting. Public meetings will be held quarterly, with the remainder of the monthly meetings being held informally. The recently published Adult Social Care Paper outlines that the ICP will lead the integration of housing with health and care, by developing local strategies and delivering services. Therefore, membership of the ICP might be of particular interest for someone interested in housing and supported living arrangements.</p>	none at present

The SCMPB fosters closer working relationships with the armed forces and is chaired by Surrey County Council.
